

SIX HELD IN DISAPPEARANCE OF OHIO GIRL

KING CONFIRMS APPOINTMENT OF BRITISH CABINET

Radical Labor Element
"Out In Cold" In
Selections

GROUP TO MEET WITH APPROVAL

Disappointed Partisans
Outspoken Against
Mac Donald

Windsor, Eng., June 8.—Premier
MacDonald's appointments
to his new Labor cabinet were of-
ficially confirmed by King George
VI at Windsor Castle today.

The king received the members
of the MacDonald government
shortly after 11 o'clock and turned
over to them the seals of office.

London, June 8.—Radical sup-
porter of J. Ramsay MacDonald,
recently elected labor prime minister
of England, were outspoken today
in their disappointment at not being
represented in the premier's
cabinet, chosen almost entirely from
the "right wing" of the Labor party.
Although MacDonald on many oc-
casions in the past has shown him-
self far from anxious to see the
desires of radical elements in
his party, it was thought that he
might appease the "left wing"
by choosing at least one im-
portant cabinet member from
among their ranks.

He elected, however, to pick a
"safety first" cabinet, selecting men
of straight Laborite policies, and
leaving the radical elements sad-
denly in the cold. Chief disappoint-
ment is expressed over the fact that
neither John Wheatley leader of the
Labor extremists and a member of
the first Labor cabinet of 1924, is
in the cabinet. Neither is James
Maxton, fiery supporter of the
Wheatley faction, who was a promi-
nent figure in the campaigning for
Labor government.

The new cabinet, however, is
said to meet with approval of
Liberals and Conservatives alike, for it
is accepted as proof that no particu-
larly drastic policies will be under-
taken by the Labor regime.

LADY'S YACHT OUTRIDES STORM

Honeymooners Seen Near
Port As Fog Closes
Over Shore Line

Bethlany Harbor, Me., June 8.—A
June moon, romantically silver-
ing the rippling waves may make
a perfect honeymoon setting for
Mr. Dick or Harry and their brides,
but not for the "honeymoon yacht."

From the point of view of Lindy
and Anne there's nothing quite so
gay as a nice, damp, sticky—and
wholly opaque—fog.

Happy isolated today somewhere
in the misty privacy off here,
Colonel Charles A. Lindbergh and
his bride were enjoying to the ut-
most a temporary seclusion afforded
them by atmospheric conditions.

Fog shrouded the little power
boat, Mouette, soon after the
yacht with Lindbergh himself at the
helm was seen to pass point Pema-
quid, heading presumably for a
further anchorage.

William Wincepaw, airplane pilot
of the Curtiss Flying service at
York, was the keen-eyed scout
who saw the Mouette arrive, but
even airplanes could peak there-
fore the "honeymoon yacht,"
which was hidden safely through a
rain, thunder, lightning
and high seas.

For wrapped them round about
and even killed the betraying sound
of their chugging motor. The small
yacht of reporters, reinforced by an
army of photographers in
rubber boots and tin hats, was de-
finitely "blackballed" at least for the time
being.

BRAKES LOCK; BUS CRASHES

Passengers Are Slightly Injured.
None Seriously; Driver Tried
To Avoid Automobile

Springfield, O., June 8.—Thirteen
passengers of a large greyhound
bus enroute from Cincinnati to
Columbus, which overturned in a
spin along the National highway,
were here, last night, today were
receiving their narrow escapes
from death or serious injuries. All
were slightly bruised.

H. C. Bourlog, Indianapolis, was
the driver of the bus. He was cut
and bruised.

He claimed that the air brake
on the bus had locked when he ap-
plied them to keep from striking
another auto. The bus skidded from
the west and overturned.

Clinic Disaster Cost High

Columbus, O., June 8.—The
Cleveland clinic fire-explosion
disaster, besides taking a toll
of more than 120 lives and
doing damage in excess of
\$250,000, will cost the state of
Ohio at least \$144,011.

This became known today
following the action of the
State Industrial Commission
here in allowing death awards
to the relatives of 27 persons,
who met death in one of the
Buckeye state's greatest
tragedies.

Forty-one cases were con-
sidered yesterday. Fourteen
were continued pending fur-
ther investigation.

This sum of money award-
ed will only be part of the
money expended by the state
after relatives of other per-
sons file claims, it was de-
clared. Three deaths and 32
injury claims are yet to be
filed.

HOOVER COMMISSION FINDS ROUGH GOING IN SURVEY OF CRIME

Statistics On Criminal Activities Lacking; Will
Appeal to Courts and Officers For Aid;
Real Start Hoped For In Ten Days

Washington, June 8.—President
Hoover's law enforcement commis-
sion is encountering rough going in
its quest of the causes and curatives
of American lawlessness.

This much was candidly admitted
today by ex-Attorney General
George W.ickersham, the chair-
man. After numerous meetings with
the committee and consultations
with cabinet officers, he described
the task set out by President Hoover
as "baffling and perplexing," and
ordered another 10 days' recess so
the commission can get together
enough data to make a start.

"No one can realize," he said,
"who has not looked into the ques-
tion closely just how baffling it is."
The principal difficulty, the
chairman said, is the lack of re-
liable statistics on the crime situa-
tion in the United States. There is
plenty of crime, but few authorita-
tive figures.

DR. B. F. STANTON ADDRESSES 300 SALEM ALUMNI

Association Gathers For
Annual Meeting At
Memorial Building

The 1929 graduating class of Sa-
lem high school was formally in-
duced into the school alumni asso-
ciation, at the annual banquet and
dinner, of the organization, held at
the Memorial building, Friday eve-
ning. Three hundred alumni were
present at the occasion.

Dr. B. F. Stanton, superintendent
of Alliance public schools was the
speaker, and discussed the problems
which the graduates will face dur-
ing succeeding years of their lives.
He spoke of life in modern times as
more complex than at any other
period in history, making the selec-
tion of a proper life's vocation more
difficult.

"Era of Rush and Speed"
"We have an era of rush and
speed," Dr. Stanton stated. "A few
years ago the thousands of deaths
resulting from automobile accidents
and other casualties from modern
devices were impossible occur-
rences. We must appropriate our-
selves to the new conditions, for just
as times are more dangerous to life,
they are more difficult in other
ways."

"Before you speed," he added, "Be
certain that your speed will result in
your attaining the proper goal.
There is no greater disappointment
one can find in life than to advance
into middle-age and discover that
you are disappointed in yourself."
Salem High expects great things
from all of you. Maintain the stand-
ard exemplified in past graduating
classes."

He was presented by Robert V.
Garrison, 27, of Cleveland, president
of the association, who presided as
master of ceremonies. Garrison wel-
comed the class of 29, James Pat-
ten, class president, responding in
behalf of the graduates.

Scholarships Awarded
Scholarships were awarded Mary
C. Rich and Florence Davis, for \$250
each, by H. H. Sharp, chairman of the
scholarship committee. Sharp re-
viewed the history of the scholar-
ship fund, and explained that in
future years, it was probable that
the scholarships will be increased.

A song and dance entertainment
was offered by Ralph Hannay, 25,
and Harold Harmon, 24. Miss Flo-
rence Dick, Sharon, Pa., entertained
with a dance.

Reunions of various classes were
held after the banquet. In other
rooms of the building. Several mem-
bers of the class of 1878, and other
pioneer classes of the school were
present.

The program was arranged by the
executive committee of the associa-
tion, of which Miss Nellie Halde-
man, 23, was chairman. The other
members of the committee were:
Roberta Reese, 27; Mrs. Robert An-
derson, 27; Mrs. Herman Litty, 27,

Quiet Again Prevails after
Disturbance In North
Carolina

Gastonia, N. C., June 8.—More
than two score persons were arrest-
ed early today in connection with
the shooting of four police officers
and a civilian during a night of dis-
turbance at Loray Mill here.

The charges against the prisoners
is "secret assault with intent to
kill," but should Police Chief O. F.
Aderholt, who was seriously
wounded, die, the charges probably
will be altered to murder, it was
stated at headquarters.

The four policemen and the civil-
ian were wounded in a fusillade of
shots which it was declared barked
out of the guns of strikers and
sympathizers during a mass meeting
of Loray Mill strikers.

The police stated that there prob-
ably would be additional arrests
during the day. Those under arrest
it was stated were "found around
the strikers' camp." The strikers
have put up a tented city here.

First Disorder For Weeks
Last night's disturbance was the
first major disorder that had been
reported in the Gastonia strike
zone in several weeks. The situation
had become so quiet that several
companies of national guardsmen
were withdrawn last month.

Those injured in addition to Chief
Aderholt are: Deputy Sheriff
James Roach, also not expected to
recover; Policeman Tom Gilbert,
wounded in leg; Policeman Charles
Ferguson, wounded in leg, and Joseph
Harrison, an organizer for the
National Textile Workers' union.

During a mass meeting the offi-
cers were summoned by mill offi-
cials who feared an attack by strik-
ers or their sympathizers on the
mill. Arriving on the scene the of-
ficers were shot before they had a
chance to reach for their weapons
in defense.

Police said comparative quiet
prevailed in the strike section to-
day, but extraordinary precautions
were being taken to prevent fur-
ther disorder.

CHILD CLINIC TO START MONDAY

and this service will be without cost
to parents.

Two hundred notices have been
sent to the school to parents who
have children to be entered in
school at the beginning of the next
term. Preference will be given to
children who have had the medical
examination and are in good health,
when the fall term opens. Parents
not receiving these notices are to
bring their children to the clinic.

The clinic is held in order that
the children entering the first grade
may be in good physical condition.

today for working what police
say is an entirely new

man.

His victims, astonished by the
unladylike conduct of

FIREMEN BATTLE GASOLINE BLAZE

Gallons Of Gasoline In
Large Storage Tanks

Detroit, June 8.—A spectacular
fire which swept the Sun Oil com-
pany storage tank yards and for a
time threatened to explode fifteen
10,000-gallon gasoline tanks, was
extinguished by firemen here Fri-
day after a stubborn battle.

According to company officials,
the blaze is believed to have started
through static electricity generated
by the flowing of gas in a pipe while
a truck was loading. Damage was
relatively small, officials stated. No
one was injured.

Flames leaping 200 and 300 feet
in the air along with dense funnels
of smoke attracted at least 10,000
spectators to the scene.

LAST SEEN IN AUTO OF YOUTH; FEAR FOR LIFE

11-Year-Old Girl Left
Home With Three

WOMAN, DAUGHTER AMONG THOSE HELD

Prisoner Denies Girl Was
In Home; Stories
Conflict

Columbus, O., June 8.—With six
persons, four of them youths, being
held under \$25,000 bond each, police
today expressed the belief that 14-
year-old Marcetia Baxter, who dis-
appeared from the home at which
he was staying May 28, was the vic-
tim of foul play.

Her disappearance was not re-
ported to police until late yesterday,
and authorities, moving with light-
ning-like swiftness, had six persons
under arrest today and had impli-
cated a seventh one.

The girl, it was declared, was last
seen entering the roadster of three
youths. She was attired in a night
dress, but changed into street
clothes in the roadster, witnesses de-
clared.

Raymond Greer, 16, Gerald Kirk,
21, James Farr, 23, Kenneth Hukill,
19, Mrs. Pauline Law and her 13-
year-old daughter, Evelyn, were ar-
rested. The latter two are being held
as material witnesses.

Tell Conflicting Stories
All told conflicting stories, accord-
ing to police.

Mrs. Law, it was declared, denied
the girl had been in her home after
she was last seen on the streets.
She then admitted that the youths
had brought the child here.

The strongest link in the chain
which police are trying to weave
about those arrested is the admis-
sion of Evelyn when she was ques-
tioned by juvenile authorities.

When asked if the missing girl
was dead when she saw her at her
mother's home, Evelyn hesitated
and then denied the girl was dead.
From her broken statements to pol-
ice, it was ascertained, however,
that the girl was ill.

Statements of some of these held
under \$25,000 bond, that the girl had
threatened suicide, also supported
authorities' belief the girl is dead.
Mrs. Law is Kirk's sister.

TOO MANY UNDESIRABLES AS IT IS

Long experience has proved that it is not an easy proposition to amend the constitution of the United States. Since the founding of our government almost 1,400 proposals have been made in congress looking to its amendment, and but nineteen of them have resulted in changes in our basic law.

It is well that it is a matter of extreme difficulty to change what is generally recognized as the most splendid achievement of its kind of all history; the greatest bulwark extant of the liberties of a free people. We may be glad that the way to its amendment is tortuous and the obstacles to be overcome many. Were it otherwise it would today be scarcely recognizable as the great document handed down by our forefathers, who surely must have been inspired in its conception. Had it been easy of amendment, it would today be typical of every passing whim, ism and prejudice.

We are led to these observations by the proposal of Congressman Anthony J. Griffin, of New York, that the constitution be changed to fit the case of Mme. Rosika Schimmer, the Hungarian radical and pacifist, held by the federal supreme court to be unfit for citizenship for the reason that her admitted lack of nationalistic sense and her boasted "uncompromising pacifism" make her "liable to be incapable of that attachment for and devotion to the principles of our constitution that is required of aliens seeking naturalization." Congressman Griffin would have the constitution so changed that no person otherwise qualified should be denied citizenship because of his or her personal opinion with respect to the lawfulness of war as a means of settling international disputes.

We hardly believe that the sober sense of congress will permit it to run along with the mind of the New York congressman in this regard. We believe that there is a growing feeling in this country that we already have too many citizens who are pacifists, internationalists, people without sense of nationalism; too many who think more of almost any country than they do of their own and who labor to promote the welfare and interests of other lands at the expense and to the detriment of the land in which they claim the right citizenship only to do all in their power to embarrass its government and plot against the success of its policies.

It may be said that, when a great people change the basic law of their land to fit the case of one who is not one of them, that people is in a very bad way and their government is not long to endure.

And there is a further angle to the proposal of Congressman Griffin. While the admission of Mme. Schimmer to United States citizenship might work no harm in her particular case, the harm it might work in encouraging other objectionable aliens to seek admission, and possibly secure it, would simply be beyond conception. The proposal of the New York congressman, were it to become engrafted into the constitution, would let down the bars to practically every enemy of government unless a crime record could be fixed upon him. We have too many undesirables native born as well as alien, among us as it is.

What Others Say

A NATURAL PHENOMENON.
Basing his conclusions on a survey of 10,000 children, William J. Ellis, New Jersey state commissioner of institutions and agencies, told an assemblage of club women that as the adolescent grows older his fondness for home life decreases. He added: "At eleven years, seventy per cent. of the girls questioned and sixty per cent. of the boys, prefer their homes to other places, but from eleven to seventeen years of age, the percentage decreased five per cent. each year for those who preferred their homes as a place in which to spend leisure time."
It would be rather surprising if something of the sort were not true. Aside from consideration of defects in home surroundings, which are many, and because modern conditions of life are growing constantly more numerous and unfortunate, it is entirely natural for the average

younger to become more and more inclined to brouse abroad for amusement and entertainment as he acquires years and capacity to think and do things for himself. That is the rule in the whole animal kingdom, and human society could scarcely continue under any other conditions.

Per the boy or girl, home ought to be a place to tie to and fall back upon and take interest in and enjoy, but it ought also to be a place to go out from in search of friends and recreation, and to acquire widening interests and practical knowledge.—Detroit Free Press.

DOCTOR PRESCRIBES FORM OF EXERCISES

BY ROYAL S. COPELAND, M. D.
(United States Senator from New York)

Several weeks ago I called on the President at the White House. This was just a few days after the inauguration and in the period when he had many vexing problems to settle.

I was disturbed. I found his office hot as an oven. It was stifling in its lack of fresh air.

When I protested the President laughed, but jumped up immediately to open the window. On my official visits to the White House since then I have found his office cool, well ventilated and a suitable place to house the Chief Executive.

Because the alert newspapermen gave publicity to my first visit they have been eager to inquire each time I am at the White House what I think of the President's health. As a matter of fact, he looks very well indeed.

He is fortunate in having a very sensible physician, Dr. Joel T. Boone, a medical officer of the Navy. This wise man keeps a watchful eye on the President. I am glad of it because when unusual exercises are taken, particularly those of a violent nature, it is important to know the condition of the heart, lungs and other organs.

For instance, so violent form of exercise as "medicine ball" indulged in by the President, should not be undertaken by a person past middle life unless the vital organs, including the blood vessels, are in prime condition.

That is the thought I have in mind today. We are living in a period when thousands of our citizens are seeking to take off flesh. Modern life is conducive to increased weight. City dwellers particularly have so many things done for them that they do not exercise as their ancestors did. This fact added to the further truth that many present-day foods are fattening makes it almost inevitable that fat should accumulate.

I sometimes think we lack character when we permit our conditions of life to do us harm rather than good. I'm glad I live in these times and I know you are.

But we must not permit softness and needless self-indulgence to mar our figures and shorten our lives. We may not be particularly concerned about how we look but my observation is that the average person does not wish to die before his time.

Once in a while therefore, a suddenly aroused person will jump into the most violent exercises and wicked restriction of food. Please don't yield to the impulse to do these things until you have talked

with your doctor. He is qualified to advise whether you can safely do the things you have in mind.
I am glad the President recognized this fact. Under the eye of his physician he has taken off 15 or 20 pounds and has done it in a way pleasing to him. My suggestion to you is that you have your physician, as the President did, tell you what to do.

The Stars Say —

For Sunday, June 9
SUNDAY'S horoscope indicates much liveliness and activity although accompanied by much upheaval and agitation. There may be some sudden visitation to disturb the Sabbath, preoccupations. All things of literary nature will be under high stimulus. Employment is under favorable rule.

Those whose birthday it is may prepare for a lively year, with possible excitement, agitation or upheaval of an unexpected nature. Employment and literary pursuits are under auspicious signs for success. A child born on this day may be talented and lively, but probably subject to sudden upheavals in its life. It should succeed in a literary career or in the employment of others.

As the evening twilight fades away, the sky is filled with stars, invisible by day.—Longfellow.

For Monday, June 10
MONDAY'S astrological forecast is for a fairly tedious day with little of interest unless that interest be bound up in domestic or social harmony or friction. Also employment may develop some anxieties but not of a serious character. Be careful in signing writings. Transactions with corporations or secret societies may flourish.

Those whose birthday it is may not experience a year of great activity. Affairs may move in routine grooves, although there may be

some friction in employment and in personal affairs. Negotiations with corporations, rings or secret orders may be successfully managed, but sign papers cautiously. A child born on this day may make its best success through strategy and secret understanding rather than straightforward dealings.

THE NEW WESTINGHOUSE ELECTRIC RANGES

You never saw the equal of these new electric ranges. Except for setting the clock and the thermometer when you put the food in the oven (cold), you don't have to watch or touch a thing until cooking is completed.
No initial searing is required. No hand adjustments are necessary. No basting to do. No water to add. For "Flavor Zone" cooking is entirely automatic from start to finish and there's no guesswork about results.

DRIVE IT THROUGH TRAFFIC

If YOU want a car that is easy to handle in traffic, come drive this finer Oldsmobile.

The moment you pull away from the curb, you'll realize that here is a car that will give you genuine pleasure to drive. The driving position is supremely comfortable, due to the Fisher adjustable front seat and the adjustable steering wheel. Controls and instruments are conveniently arranged. Gear-shift, clutch, and brakes are easy to reach and to operate. Response to the throttle is swift and smooth.

Your first experience at a signal light will tell you that here is get-away second to none—pick-up as stageless as that of an electric motor. And each succeeding trial will prove how readily Oldsmobile flashes into the lead when the green light signals "go."

But there's more than get-away to driving in traffic—far more. Put Oldsmobile through its paces. Make opportu-

nities for difficult tests deliberately.

Note how easily and surely Oldsmobile glides through crowded streets. See how it straightens out, almost automatically, after turning corners. Observe how quickly you can stop. Good brakes are an essential safety factor for city driving. Oldsmobile's positive-acting four-wheel brakes are exceptionally efficient—and they are smooth, quiet, and easy to operate as well.

Then try parking. The same fingertip steering and short turning radius that give you such sureness of control in driving make parking easy even in small spaces.

Just drive this Oldsmobile. Try it in traffic and on the open road. Make critical comparisons with other cars. That's the only way to find out what it can do, and how it does it. That's the way to know every phase of its performance. That's the way to judge its value.

CONSTABLE WILL FACE CHARGES

Shot At Auto After Collision; Man Is Said To Have Given Name And Card.

Huntington, W. Va., June 8.—Levi Blankenship, constable in an adjoining county, has been indicted for shooting with intent to kill as a result of his alleged actions recently in firing three shots at the automobile in which Arthur Roe, Westmoreland, and his three children were riding.

According to authorities, an auto driven by Roe collided with Blankenship's car. Blankenship fired at Roe's auto three times, after Roe had stopped and left his address and then continued, witnesses say. After the accident, Blankenship is alleged to have gone to the Roe home and to have arrested Roe after breaking down a door to gain admittance. Roe was taken into custody regardless of the protests of Otis Farley, a Huntington policeman.

Blankenship arrested Roe on an intoxication charge. It has not been prosecuted.

Roumania Facing Rising Discontent

London, June 8.—The voice of discontent is again making itself heard in Roumania, according to a special correspondent of the London Daily Mail.

The Roumanian peasants, who had been led to believe that with the taking over of the Government by the Peasants' Party the injustices inflicted on them by the Bratianu regime would disappear, are now finding that things are very much the same as they were six months ago, the correspondent declares.

M. Maniu, leader of the Peasants' Party, has not dropped his program of reform, but he is encountering formidable difficulties.

Every Government department is controlled by men put into their place by the old regime and the present Ministers are afraid of taking decisions or even contemplating reform, knowing that their movements are watched and reported to the Civil Services permanent staff.

New steps to bring prosperity to Roumania are being considered by those who have the welfare of the country at heart, the correspondent says.

One plan suggested provides for a rearrangement of the Registry. The Brazilian element being eliminated and a prompt reconstruction of the Constitution.

"CHUTE" FAILS; FLIER KILLED

Army Pilot Crushed In Plunge To Earth From Plane

Coon Rapids, Iowa, June 8.—Lieutenant W. D. Slingerland, 24, United States army pilot from Selfridge Field, Mt. Clemens, Mich., is dead as the result of his parachute failing to open when he made an emergency leap from his plane near here last night.

Slingerland was on his way to Sioux City to take part in an aerial demonstration to be held at Rickenbacker field there tomorrow. The flier' death was not known until five other army pilots, also from Selfridge field, landed at the Sioux City airport and inquired for their missing companion.

Maj. Ralph Royce, commander of the pursuit group, told airport officials at Rickenbacker field that he had noticed Slingerland having trouble with his plane as the squadron flew over Manning.

Fear that Slingerland might have crashed led to a search and after several hours his body was found in a field, near the wreckage of his plane. Slingerland, according to other pilots, had not been assigned to the squadron en route to Sioux City but had come along because he wished to visit his parents who live at Kasson, Minn. Slingerland was married two months ago. His widow is at Selfridge field.

THE HOME KITCHEN

By Jeannette Young Norton

Why mushrooms ever should have been expensive is a mystery. They grow abundantly wild, and there are over a thousand varieties, most of which are edible. However, there are several poisonous varieties, and as it takes an expert to recognize them, the safest thing for most of us who are not experts is to buy the commercially packed mushrooms. These are now sold at fairly modest prices so that we can eat mushrooms as a main dish instead of buying them as a garnish.

Mushrooms should be separated from their stems, and the caps peeled. The stems can be scraped, and either used with the caps, or put aside and served separately minced, as a flavoring for some sauce or soup. However, to get the full measure of flavor from mushrooms, they should be served as nearly naturelle as possible, and not combined with any other flavor or food. Here is a simple recipe which gives you all the flavor and juice of mushrooms without waste of any kind.

Mushroom Sauté

Separate caps from stems and peel caps. Melt four tablespoons of butter for each pound of mushrooms used. Place the mushroom caps in the saucepan with the melted butter and cook slowly on each side for five minutes. Dissolve one tablespoon of flour in one cup of milk, add to the mushrooms, and continue cooking for five minutes more. Then pour on slices of untoasted bread, allowing one per person. Add salt just before serving.

Broiled Mushrooms

Separate caps from stems and

peel. Soak in oil or melted butter for five minutes then place on a fine wire rack and leave under the broiler, toasting on each side. Place on slices of buttered toast and sprinkle a bit of lemon juice on top just before serving.

Baked Mushrooms

Butter a large baking pan. Place on it slices of bread cut fairly thick and buttered. Put a few large mushrooms caps on each slice with the gill side up so that a bit of butter can be placed in it. Cover the pan and bake for 10 minutes or a few minutes longer if the mushrooms are not yet done. Add salt just before serving.

Mushrooms combine well with other vegetables, but if they are to be chopped up one might as well use only the stems. Mushrooms can be mixed with tomatoes, or bread crumbs, chopped bits of chicken, veal or ham and used as a stuffing for any of the vegetables. Stuffed peppers, tomatoes, cucumbers or squash, are improved by the addition of mushroom flavor. But the true appreciator of mushrooms takes his straight—the full flavor, uncorrupted by the addition of anything else.

If you live near the woods and have ambitions to become expert in the recognition of edible mushrooms, you may be able to obtain a lot of delightful dishes, free, gratis, for nothing! It takes time to learn how to detect them, but there are several helpful bulletins published by the government on the subject. And there is a standard work, "Our Edible Toadstools and Mushrooms" by W. Hamilton Gibbs which describes the hundreds of varieties.

Children's Home Cheery Place, County, State Officials Say

General Improvements In Two-County Project Are Reported

Glowing compliments for their untiring work since they assumed charge of the Fairmount Children's home south of here have been paid Mr. and Mrs. R. D. George, superintendent and matron, by home trustees of Stark and Columbiana counties and by state officials who have inspected the plant.

A tour of inspection of the grounds and buildings during the meeting of home trustees Monday brought approval on every project which Mr. and Mrs. George have fostered since they took over the administration of the home.

The farming, dairy herds and stables, chicken raising the redecoration of cottage rooms for the children, the wonderful school exhibit arranged by the children, the morale of the children—all these brought favorable comments from the trustees.

Joanne Ortelie, a registered nurse for the department of public welfare at Columbus, added her praise in a letter addressed to Jacob Graze of Massillon, a member of the board of trustees.

Miss Ortelie listed 10 changes which have occurred under the George administration for the betterment of the home.

The relationship between Mr. and Mrs. George and the home staff, their cooperation for the interest of the children the improvement in the general attitude of the children, development of the health and medical work, the redecoration of the nursery, the purchase of a truck to take children on outings, the interest of Alliance ministers who hold Sunday afternoon services at the home, the development of various farm projects and the cooperation with the social service workers in placing children in foster homes were listed by Miss Ortelie for special praise.

"A few months ago I visited the nursery" one of the home trustees said Monday afternoon. "It was the most desolate-looking place I ever saw. It has been redecorated and furnished and today I was willing to spend the whole afternoon there."

Jacob Graze, Mrs. Mary Lutes, George H. Cassidy, F. E. Owen

and F. W. Weidmeyer Stark and Columbiana county members of the trustee board, A. E. Howell and Margaret McCullem of the Children's bureau at Canton attended the meeting.

The afternoon hours following a tour of inspection, were devoted to hearing the report of Howell on the work of placing children in foster homes and how these children are progressing. So much time was allowed for this that trustees are to hold a special meeting at the home Sunday to draft the 1939 budget request so it can be submitted to county officials by June 10.

Not a boy nor a girl who has been taken from the home and placed with foster parents was overlooked by the trustees. And with parental interest, the trustees inquired how each was doing. Boys who are working for a living in nearby cities are being watched by trustees who stand ready to help them whenever aid is needed. Through the Children's bureau these children are visited periodically and a close check is kept.

Howell gave a summary of the work from August 15, when the Children's service took over the placing of home inmates in foster homes. During the nine and a half months, 159 children who might otherwise have been placed in the home, were kept with parents or relatives; nine are now boarded with relatives; seven have been placed in foster homes, 11 were placed for adoption and only 25 were admitted to the home out of a total of 211 cases. Eight children admitted to the home were from Columbiana county and 17 from Stark county. These 211 children came from 76 different families.

Home trustees authorized Superintendent George to keep Janney Gleskey, Phillip Lazeretta and Charles Pusateri at the home. Janney Gleskey and Phillip Lazeretta are musicians who have been enrolled in the Allen institute of music while Pusateri is an embryo artist. All three are leaders among the home children.

MYSTERY HOVERS OVER MURDER

Attorneys Tell of Being In Roadhouse When Shots Are Fired

South Bend, Ind., June 8.—The investigation into the mysterious slaying of Edward J. Blankert, 41, prominent politician, shot to death in a roadhouse, six miles east of Mishawaka took a sensational turn when it was learned that three prominent Elkhart, Ind., attorneys had voluntarily appeared at police headquarters at Elkhart and announced they had been present at the roadhouse during the shooting.

They were: Orin Markel, a former state senator and former all-American football star at Swarthmore college.

Hawley O. Burke and Alex Siebers.

The three attorneys told the police they had nothing to do with the shooting and that they had fled from the roadhouse without investigating the shooting when the bullets began to fly.

Meanwhile police were holding two women and one man in connection with the probe of the Blankert murder. Those held are:

Marvin Kramer 24, an automobile salesman, who is under police guard at St. Joseph's hospital at Mishawaka with a fractured foot.

Ethel "Buster" Boyer, proprietor of the roadhouse.

May Mitchell, 22, an employee at the roadhouse.

YOUNG PLAN TO
FAIL, PREDICTS
GERMAN LEADER

Tributes Demanded Far
In Excess of What
Nation Can Pay

Berlin, June 8. — "The Young Plan will fail, just as the Dawes plan failed, because the tributes demanded far exceed Germany's capacity to pay. Nothing has been done to enable Germany to increase her capacity to pay."

This was the opinion expressed to International News Service today by Alfred Hugenberg, chairman of the National People's party and foremost industrial leader in Germany since the death of Hugo Stinnes. After Hugenberg's party is expected to lead the opposition in Germany against ratification of the Paris reparations agreement, his views, as expressed exclusively to International News Service, embody the arguments which are expected to be advanced against ratification.

The attempt, backed by the most important financial experts in America, to find a permanent solution of the reparation question, has failed, Hugenberg declared.

The Paris result, which does far exceed the German's capacity to pay, is no economic settlement based upon the demands of creditors. It is a political agreement based upon the demands of creditors. Their demands have not almost completely.

The payments which Germany would have to make on the basis of the Paris agreement far exceed the demands of the Versailles treaty. And the Versailles treaty was based upon the assertion of Germany's sole guilt in the war, an assertion which has long been refuted by the opening of many official archives and researches conducted by American scientists, among them some of the most prominent American historians.

CASE SETTLED
AFTER 8 YEARS

Partition Proceeding Cost
Runs To \$1,530; No
Witness Fees

Leban, June 8. — Costs amounting to \$1,530.74 listed in the partition petition filed Sept. 9, 1921 by Emmett LeRoy Sanor of Homeworth against Sarah Sanor of 908 10th st. SW Canton, have just been paid to Clerk of Courts Frank Ballantyne by the sheriff's office.

When this case was filed the late Judge James G. Moore made the partition entries. Later the issues went to trial before the late James W. Harrison county, during an assignment to this county, and after that issues were also heard by Judge J. H. C. Lyon of Youngstown. In the meantime the court appointed Judge W. F. Lones, then an attorney as referee to hear other issues.

Twice To Appeals

Twice the case went to the court of appeals, and the supreme court reversed a motion to certify the record into that court. At the last session of the appellate court in this county, the appeal was dismissed by consent. The appellate court sustained the lower court when the issue was first argued. Nearly four pages in an appearance docket have been used in making the many different entries.

Witnesses who appeared in this case will not receive their fees, and the clerk's office will return checks to the sheriff's office for fees. The total costs are said to be nearly the highest ever taxed in a partition action in this county. Eight or more attorneys were identified with the case from time to time.

San Antonio Artist
Tattooes Children

San Antonio, Texas, June 8. — Mothers of boys and girls at the Thomas Nelson Page Junior High School here, recently went on the war path against a tattoo artist who they alleged, had decorated their children with dragons, snakes, flowers, hearts, initials, coats of arms and beautiful ladies.

A committee of the mothers, who met on Mayor C. M. Chambers' order that the tattoo artist had signed to the school, exhibited samples of his work and enticed the children to go to his studio for decoration. Several children, they said, were in danger of blood poisoning as a result of the tattoos which had been turned into their skin.

The mayor promised immediate relief, and instructed City Attorney J. E. Ryan to draw up a city ordinance declaring tattoo artists vagrants.

Brakeman Killed
While At Work

Marion, O., June 8. — Nicholas Danen, 63, Columbus brakeman of the Toledo division of the Pennsylvania railroad, was found lifeless in the yards of that railroad here late yesterday afternoon.

His body was mangled and it is thought that he may have fallen under the wheels of his own train while on the path of a yard engine. His body was taken to Columbus where funeral arrangements are being made today.

Ends Own Life

Lisbon, June 8. — W. F. Duncan in common pleas court has granted a decree of divorce to Virginia H. McPherson against her husband David B. McPherson, and has also awarded her the custody of a minor child, with the right of visitation at reasonable times granted the defendant.

The court has ordered McPherson to pay \$50 as counsel fees for his wife, and in addition to pay her \$25 at once and hereafter \$20 the first of each month for the support of his child. The order also provides that payments are to be made through the office of the clerk of courts. The support money is to be paid until further order of court.

On the grounds of three years wilful absence, Harold S. Yost has obtained a divorce from his wife Frances I. Yost, and upon the payment of the costs of the suit.

They were married May 6, 1903.

Mervyn declares his wife left his home four years ago without cause, and has refused and neglected to live with the plaintiff.

Property Damage Sued

Suit claiming \$1,500 property damage has been filed by Henry Holland and others against S. W. Simms. Mackall of East Liverpool, has filed a suit for \$550 damage against Mary Kidd of Damascus. Negligence on the part of the defendant is charged. The plaintiff was driving on the Salem-Warren road and at the intersection of the Canfield road his car was struck by one driven by the defendant, according to his petition.

As a result of false accusations, a

\$10,000 slander action has been filed in common pleas court by Maude McKinney, through her counsel P. V. Mackall of East Liverpool against the Metropolitan Chain Stores company, operating a branch on East Fifth st., East Liverpool.

Antonio DeGennaro has sued the same defendant for \$5,000 damages and Louis Ferando has filed a similar action claiming \$5,250 damages. The court has granted leave to Wilke to file his answer in these cases on or before June 29 also.

Sale Confirmed

The court has confirmed a sale ordered a deed and distribution of funds now in the hands of the sheriff in the foreclosure action filed by Harry Dreier against the Standard Porcelain Co., of Leontonia. Damascus Looms As Outstanding Team In Softball Circuit

Outside Aggregation Leads League With Four Straight Wins

Damascus Quakers, entering the city softball league after one of the original mustball aggregations failed to produce enough players for a team, looms as the heavy favorite to win championship honors for the first half of the circuit at least, having annexed easy victories in its first four contests, and now holds undisputed possession of first place.

The Quakers won each of their games by one-sided scores, but have yet to clash with the league's leading teams, Mullins and the Colonial Billiards, both of which are powerful combines. The Mullins lost its first game to the Maccabees, 17-16, then upset all odds by handling the Billiards a 6-5 set-back in last week's riotous affair.

This trio, Mullins, Damascus, and the Billiards appear as the circuit's most formidable aggregations, the

Merchants being eliminated from the running almost entirely when they succumb to a white-wash, brushed on them by the Quakers.

Next Week's Schedule

The Kiwanis club, which isn't so strong, meets Mullins in next week's opening clash, Monday evening, while the Billiards should have everything their own way against the Post Office, Wednesday. The Quakers oppose Electric Furnace tappers Thursday night. Tuesday night, the Merchants are billed for an engagement with the Maccabee legions.

Kiwanians loomed fairly strong when they held Damascus to no-score for four frames, but fell down terribly in the fifth, permitting 13 runs to cross the plate through five errors and a group of bingles. Their 5-2 win over the lodge ten last week was anything but the expected.

The Billiards are in the runner-up position with three wins and a defeat, with the Maccabees, Mullins, Kiwanis, and Merchants involved in a three-way tie for third place, having broken even for a 500 percentage in games played. Electric Furnace stepped out of the 600 group Thursday night, trimming its former cellar colleagues, the Post Office, 23-10. The Federals have failed to finish on top in any of their four games.

Interest in this year's competition is not at all what it was last year, the majority of fandom having again turned over to hardball, and are trying to revive interest in the regulation sport. The field at Centennial park has been improved greatly, and hardball is now possible with safety, and it's probable a league will get going before the season is gone much farther.

The meeting this week resulted in no great progress towards this second league, but another will be held at the Memorial building Monday night.

then are required to appear, unless the entire club is traveling and makes the barnstorming stop between points. Even then, they may not be expected to play at all, or, if they are, they appear only for a few innings and let it go at that. Not so with Ruth.

"No Ruth; no game."

This, tersely, is said to be the story of all exhibition contracts made between the Yankees and the towns visited. Whether he feels like it or not, Ruth must play nine innings of baseball or the club forfeits its guarantee. So far, the club is understood to have been very reliable in this connection.

Exhibition games, of course, are an accepted part of the life that ball players follow and all of them, the best and the worst, must ex-

hibit. Ruth, they said, was completely fagged after this pair of games on one of the hottest afternoons of the year, yet was routed out early the next day and driven 110 miles in an open bus to the exhibition game at Chambersburg, Pa. They say he got a chill, en route, and has been a sick man ever since.

Exhibition games, as a rule, are quite a break for the stars. Few of

Giants, True To Form, Race Up, Down League Standing

BY LE SCOKLIN

New York, June 8.—John McGraw's Giants who can be counted upon every year to jump from one end of the National League standing to the other, either from top to bottom or vice-versa are running true to form again this season. Their sensational spurt of the past two weeks has netted them 14 victories in 16 starts and has carried them from the verge of last place to within 3 1-2 games of the league-leading Pirates.

The McGrawmen today begin a series with the lovely Reds, the only league rival they have not beaten this year. Then comes the important series with the Pirates.

The Cardinals who dropped three straight games to the New Yorkers, were happy to see them leave St. Louis last night. Karl Hubbell, a second victory of the week in beat-native Missouri, turned in his leg yesterday, 8 to 1. Civic interest in the champions dropped still closer to the zero mark, only 3,500 fans attending the game.

The Cards dropped into third place below the Cubs, who trimmed Brooklyn again, and the runners-up in the American League also exchanged berths. The Browns passed the Yankees by handling the Athletics their worst shelling of the year, 15 to 6, while the Yanks lost to Cleveland.

Charley Root of the Cubs held Brooklyn to four hits, a homer by Gink Hendrick and three singles by Babe Herman, winning 11 to 2. Johnny Moore, Chicago's Rookie

outfielder, had a perfect day at bat with four hits.

Brooklyn incidentally subleased the league cellar to the Reds, who moved out the Phillies in the eleventh by a 7-6 score.

Ervin Brann, towering Pittsburgh hurler, won a 6 to 2 decision over Ed Brandt of the Braves due to the latter's wildness.

The Browns nicked five Philadelphia pitchers four 18 hits, Mamush and O'Rourke leading the attack with four smacks apiece. Mamush hammered a homer with the bases loaded.

Cleveland seems to be the nemesis of the Yankees this season, having flummied the champs four times in five games. They won yesterday by a 7-0-3 count. Dead Pan Eddie Wells, the veteran southpaw who turned in a two-hit game in his last start for the Yanks, was knocked out of the box.

Detroit's heavy-hitting Tigers scored 14 runs in the last three innings to snatch a 17-to-11 batting bee from Washington. Charley Gehring collected four of Detroit's 23 hits and drove in seven runs.

Hanover, N. H.—Dr. Ernest Martin Hopkins, president of Dartmouth college has been elected a member of the New Hampshire division of the New England council to fill the vacancy caused by the death of the late William S. Babe Ruth A Well Paid Drudge Batting Bambino Great Asset To Yankee Team

DAVIS J. WALSH

New York, June 8.—Babe Ruth is just a well-paid drudge and the New York Yankees a soulless corporation, so bent on exacting its pound of flesh from a \$70,000-a-year investment that it has made Ruth the sick man he is admitted to be.

Such was the charge brought today by friends of the home run hitter, their claim being that endless exhibition games, in which the club exploited Ruth to the utmost, gave him no rest and so weakened his resistance that he was liable to constant illness and injuries. Indeed, they went further and traced his present illness to a heavy cold contracted because of what they said was callous indifference in insisting that he undertake a long, tiring trip to an exhibition date after playing a recent double header in Washington.

Ruth, they said, was completely fagged after this pair of games on one of the hottest afternoons of the year, yet was routed out early the next day and driven 110 miles in an open bus to the exhibition game at Chambersburg, Pa. They say he got a chill, en route, and has been a sick man ever since.

Exhibition games, as a rule, are quite a break for the stars. Few of

Fewer, Kas.—The entire population of this little community recently banded together in a road building bee. The business men closed their stores and virtually every man in Fowler was busy unloading sand that had been hauled by farmers for completing the job of surfacing the streets leading to the four local churches. In one afternoon 700 truck loads of sand were hauled to Fowler. A steam shovel sent from the pumcoite mine near here assisted in loading the trucks.

HOLD ROOMER IN MAN'S DEATH

Body Found In Water
Weighted Down With
Heavy Stones

Akron, O., June 8.—Summit county authorities are questioning a suspect in county jail today following the discovery late yesterday of the body of Charles Chandler, 45, Stow farmer, who had been missing from his home since Memorial day.

The body, weighted down with heavy stones was found by Deputy Sheriff Bert Karg in the bottom of Call's dam near the Meadowbrook Country club.

The suspect, said by county authorities to have formerly been a roomer at Chandler's home, was arrested soon after the farmer's disappearance was reported but had been released on \$2,000 bail while searchers combed the northern part of the county for the missing man. He was returned to the jail last night.

LEETONIA

The annual meeting and banquet of the Alumni association of the Leetonia high school was held on Thursday evening, June 6, in St. Paul's Lutheran chapel where the Priscilla club served the three course dinner, with covers placed for 115. Short talks were given by C. E. Holt, Sr., president of the board of education, Dr. Julia Beard, J. B. Morgan, Fred Truesdale, Miss Elma Rauch, Supt. E. P. Stonebraker and Dr. Brillhart. Prof. and Mrs. J. W. Moore were unable to attend on account of the illness of Prof. Moore, were sent an expression of sympathy and word telling how they had been missed. Mrs. Tillie McNulty at this time asked for a rising vote of thanks to Mr. Mellinger for his untiring zeal that had kept the Alumni association functioning during the time others apparently had lost interest. The program was closed by singing "Annie Laurie" and "Good Night Ladies" and another meeting of the Leetonia Alumni association was past.

The Women's Bible class of the Presbyterian Sunday school, taught by Mrs. William Falls, was entertained on Wednesday evening by Mrs. Stanley J. Prior. Following the Bible lesson conducted by Mrs. Falls, a social hour was held. During this time the hostess, assisted by her daughter, Miss Ruth Mae, served dainty refreshments.

MOVIES In Playhouses Of Salem

"WEARY RIVER" COMING

"Weary River," an all-talking feature, starring Richard Barthelmess in a dialogue and singing role, will play the Grand theater all next week, as one of the leading screen attractions of the city. "Midnight Taxi," talking and sound feature will be at the Royal three days, starting Monday.

"Voice of the City," an attraction similar to the great picture "Alibi" shown at the State this week, will be at the same showhouse the first three days of the coming week, with Lon Chaney's latest story, "Where East is East" completing the week's bill.

Rin-Tin-Tin in "Land of the Silver Fox" plays at the Royal tonight, with Vilma Banky in "The Awakening," closing at the State. Mary Brian in "Black Waters" is at the Grand.

Betty Compton in Lead "Weary River" is one of the most

sensational crook and romance stories ever shown in celluloid, and features Betty Compton as Barthelmess' leading lady. It is her second appearance opposite the slick-haired songster, and without a doubt, the better of the pair, Barthelmess taking the splendid role of a singing convict, possessing a fine, tenor voice.

Lon Chaney brings to the screen a new type of picture in his thriller, "Where East is East" is a thrilling jungle drama, with Chaney cast as a hunter of wild animals for market to circuses. He is the father of a young lady, played by Lupe Velez, and all his life is given over to thoughts for her happiness. When Estelle Taylor Dempsey enters the scene as a shadow over his and the daughter's happiness, action never before screened occurs.

"Molly and Me," containing talking and singing episodes of merit, and starring Belle Bennett and Joe Brown, is at the Royal the latter three days of the week, and runs close in rating to "The Midnight Taxi." Antonio Moreno and Helene Costello play leads in the latter.

The Moreno-Costello picture is a bootlegging, hi-jacking, run-running, bond-robbing, and in general, an underworld story of real thrills and sensations. A dash of love-making and the forever true adage shown in pictures that crime doesn't pay, with Myrna Loy cast in a vivid role as villainess, make it a classy screen affair.

"Molly and Me" is classified by ratings as a high hat tale with a real romantic trend. It is about a loving couple who have loved each other through ten years of struggling, but almost founder when they reach stardom on the Broadway stage.

"Voice of the City" is a truly admirable underworld narrative, of equal caliber to "Alibi." Underworld scenes are shown, and the dramatic entrance of crime into lives of a young couple, with the husband threatened with prison, bringing it to the fore in pictures shown here in some time.

You need only drive them to get the answer. We invite you to do that, for we have found that comparison sells Hudsons and Essexes.
